Dear Parents and Carers,

RE: Oak Academy – School Rebuilding Programme

I'm delighted to share with you the wonderful news (which went live this morning!) that the government has announced Oak as one of the first 50 schools to be replaced or refurbished as part of the School Rebuilding Programme.

We all know that Oak Academy is so much more than the quality of the buildings and although it's not yet confirmed whether we will undergo a major refurbishment or complete rebuild, I do know that this work will transform facilities and bring the building fabric in line with all the other positive changes we've made in recent years.

It's no less than the amazing students and staff here deserve.

I'm looking forward to working with the Department for Education to get this project off the ground. There will be much more information to share in the weeks ahead and I will of course keep you informed as momentum builds.

One thing will never change, though. Throughout all of this, we will continue to keep the education and well-being of Oak students at the very heart of what we do.

As ever, thank you for your continued support.

Yours sincerely,

Richard Burgas
Principal
