

24th of March 2023

Dear Parent(s)/Carer(s),

Re: Bournemouth University Forensic Science Workshop

I am delighted to invite your child to take part in a Forensic Science event at Oak Academy, which will be delivered by Bournemouth University. The event will take place Friday, 21st of April from 11:30-13:30 at Oak Academy. The event is described as:

"Our two-hour workshop will see students using their forensics skills to determine who killed Rip the Pig! Students will explore a crime scene and use a combination of analytical skills and teamwork to study fingerprint, handwriting, shoe print, and blood splatter samples. While investigating the crime, they will gain an insight into Forensic Science and Investigation and learn about the variety of roles that are available."*

This is an excellent opportunity for young people to explore different opportunities within the fields of : science, criminology, policing, or for those who wish to improve their team building skills. This is also a fantastic opportunity for your child to engage with a university to raise aspirations.

There is no cost for this workshop. If you wish for your child to take place, please sign up using the link below or by scanning the QR code. This opportunity is available for the first 30 students who reply. If you have any questions, please email Michael.garza@oak-academy.co.uk
